University of Pennsylvania, Center for Ethics and the Rule of Law
Selected Law Firms and National Security Related Practice Groups

*This list is a selection of law firms with national security related practice groups, from large law firms to recent startups. The practice or industry listings are included as highlights, and there may be additional practice or industry areas at each firm that also may be national security related. In addition, most, if not all of these firms have a government contracts practice, as well as white collar defense/government investigations sections. Also, many firms have a CFIUS and/or FCPA practice; some include them under other practice group headings; others specifically list them as practice areas. Similarly, privacy and data protection sometimes fall under national/homeland security law headings; other times, those practice areas fall under technology practice areas, more broadly.
