

# SUBJECT INDEX TO VOLUMES 1–11

## (1998–2008)

This index is designed as a brief summary index to the content of the first ten years of the *Journal of International Economic Law*. It is not a comprehensive index of every topic covered, but rather provides a broad indication of the subjects covered in the articles, their authors and the materials of the *Journal*, normally referring only to the first page of each contribution. The index works as follows: *Journal* issues are referred to by volume number and issue number, e.g., 1(3) means Volume 1, Issue 3; page numbers follow. Cases and judgments are mentioned under their short titles.

The *Journal's* web site (<http://jiel.oxfordjournals.org>) has a complete separate table of contents for each issue, and it allows searching all issues of the *Journal*.
