

The O'Neill Institute for National and Global Health Law  
cordially invites you to

*Ending the HIV Epidemic at Home: Critical Next Steps*  
with Jeffrey Crowley, *Former Director, Office of National AIDS Policy*

*An AIDS Free Generation: Is it Feasible?*  
with Thomas Quinn, *Director, Johns Hopkins Center for Global Health*

**Jeffrey S. Crowley**

Jeffrey S. Crowley is an internationally recognized expert on HIV/AIDS and disability policy, having worked at top levels of government, academia, and advocacy organizations. From 2009 to 2011, he served as the Director of the White House Office of National AIDS Policy and Senior Advisor on Disability Policy for President Barack Obama. As the President's chief HIV/AIDS advisor, Mr. Crowley developed the first comprehensive National HIV/AIDS Strategy for the United States, focused on lowering the number of new HIV infections, increasing access to care, and reducing HIV-related health disparities.

Mr. Crowley has dedicated his professional career to advancing approaches and solutions to the nation's most pressing social policy challenges. From 2000 to 2009, he was a Senior Research Scholar at Georgetown University's Health Policy Institute and a Senior Scholar at the University's O'Neill Institute for National and Global Health Law, focusing his work on improving health care for people with disabilities and chronic conditions through improvements to Medicaid and Medicare. Mr. Crowley is a respected leader among people affected by the HIV/AIDS pandemic, having served in senior positions at the National Association for People with AIDS from 1994 to 2000. He has worked with domestic and international advocates and policymakers to advance more responsive and humane policies regarding HIV treatment, prevention, and research.

**Tom Quinn MD, MSc**

Tom Quinn MD, MSc is Senior Investigator and Head of the Section on International HIV/AIDS Research in the Laboratory of Immunoregulation at the National Institute of Allergy and Infectious Diseases. He also serves as Associate Director for International Research for the Division of Intramural Research at NIAID. He is also Professor of Medicine and Pathology in the Johns Hopkins School of Medicine and has adjunct appointments in the Departments of International Health, Epidemiology, and Molecular Microbiology and Immunology in The Johns Hopkins School of Public Health. In 2006 he was appointed Director of the Johns Hopkins Center for Global Health.

Dr. Quinn has been involved in HIV clinical and epidemiologic investigations in 25 countries, with current projects in Uganda, Zimbabwe, Tanzania, India, China, and Thailand. Among his professional activities, Dr. Quinn has been an Advisor/Consultant on HIV and STDs to the World Health Organization, Office of the Global AIDS Coordinator (PEPFAR), UNAIDS, and the U.S. Food and Drug Administration. In 2004 he became a member of the Institute of Medicine of the National Academy of Science. In 2007 he was elected as fellow of the American Association for the Advancement of Science. He is also a fellow of the Infectious Disease Society of America and a member of the American Association of Physicians. He is an author of approximately 900 publications on HIV, STDs, and infectious diseases.
