Georgetown University's First Annual Fintech Week

October 18-20, 2017

*Georgetown Law

**INSTITUTE OF INTERNATIONAL
ECONOMIC LAW**
GEORGETOWN UNIVERSITY LAW CENTER

Dear all,

Welcome to Georgetown's first annual *Fintech Week*.

As every participant, panelist and speaker can attest, advances in financial technology are disrupting market and regulatory ecosystems in ways unimaginable a generation ago. These developments offer the prospect of enormous opportunities and challenges, and require serious, thoughtful forums in which ideas and views across the private and public sectors can be exchanged.

We at the Institute, with our friends from Thomson Reuters and NEX, have tried to provide such a forum during *Fintech Week*.¹ During off-the-record, press-free sessions, panelists will be asked in general terms to: 1) explain or demystify in broad outlines their firm's technology and services in a manner understandable to laymen; and then 2) describe how that technology is designed to operate either within or compared to other financial intermediaries. Meanwhile, keynote speakers will offer their perspectives on regulatory developments for larger public consumption. All along, some panels will offer CLE credit for many of the attorneys who attend.

Fintech Week comprises the latest in a series of events Georgetown's Institute of International Economic Law has hosted to provide a forum for educating attorneys and market participants about the developments in financial technology. It was at one of IIEEL's signature events in December, that then-Comptroller of the Currency Thomas Curry unveiled the OCC's Fintech Chartering Program. Since then, discussions relating to fintech have taken place with other top regulators, international trade specialists and leading voices in national security.

More events are scheduled, and if you would like to support next year's *Fintech Week*—or our other IIEEL programming for finance and trade—please let us know.

We do hope you enjoy the program.

K2 Intelligence*

As president, CEO, and co-founder of K2 Intelligence, Jeremy M. Kroll is responsible for charting the firm’s growth strategy, including market development, strategic partnerships, and acquisitions. With more than two decades of investigative and leadership experience, Jeremy has led K2 Intelligence since its inception in 2009 through its growth into an internationally recognized firm with six offices across the United States and Europe.

Using the strategic acquisition of intelligence to inform risk mitigation strategies, Jeremy helps executives and business owners to further their business objectives. He serves as a trusted advisor and complex problem solver to business owners, boards of directors, and C-suite executives, working with them to mitigate risk across the corporate and family office spheres. He advises clients on risk management as they pursue strategic investments, including cross-border acquisitions and multinational investments, and helps them to navigate the changing physical and cybersecurity landscape in a way that embraces technological change while minimizing strategic risk.

In his capacity as CEO, Jeremy is also responsible for managing the company’s global business lines. He spearheads K2 Intelligence’s technology initiatives, with an emphasis on cyber defense, information security, and data analytics, helping the firm marry professional excellence with cutting-edge technology.

Before co-founding K2 Intelligence, Jeremy spent 11 years in senior leadership positions at Kroll Inc., a global corporate investigations and risk consulting professional services firm, where he served as general manager of Kroll’s information security group as well as managing director and vice president of corporate sales and marketing.

Jeremy is a respected thought leader on compliance, security, and risk in technology investing and is a sought-after speaker on these subjects. He has moderated panels on cybersecurity investment in business, spoken at conferences hosted by organizations such as the National Association of Corporate Directors, Evercore ISI, Bank Leumi, Bank of America, Simpson Thacher, and the Association of International Bank Auditors. He has been quoted extensively on cybersecurity and risk management issues in print, digital, and television media, including CNBC, Bloomberg, and Reuters.

Jeremy is also active in the investment community. His focus is on emerging and growth companies at the intersection of technology and security. He sits on numerous advisory boards for investment funds that actively invest in and foster the success of companies in the cybersecurity, risk management, fintech, big data analytics, and cloud computing sectors.

Jeremy serves as chairman of the board of directors for City Year New York, an organization dedicated to lowering the dropout rate of high school students across New York City, and is president of the American Friends of Dulwich Picture Gallery of London.

Jeremy received his M.B.A. from TRIUM, the executive global M.B.A. program of the New York University Stern School of Business, HEC Paris, and the London School of Economics. He holds a B.A. in foreign languages and fine arts from Georgetown University.

Financial Conduct Authority
United Kingdom*

Christopher Woolard is the Executive Director of Strategy and Competition at the Financial Conduct Authority (FCA). He is also a member of the FCA's Board, chair of the FCA's Policy Steering Committee and a non-Executive Board member of the Payments Systems Regulator. He joined the FCA in January 2013.

The Strategy and Competition Division comprises the FCA's policy, strategy, competition, economics, market intelligence and communications functions. It

also includes the FCA's Innovate work, launched in October 2014 to encourage innovation in the interests of consumers.

Innovate offers three main services: direct tailored regulatory support for innovative firms; the Regulatory sandbox which provides support for innovative firms who are ready to test their propositions in the market; and the advice unit which provides feedback to firms developing automated advice and guidance models. The FCA's Innovate work also supports RegTech by facilitating collaboration, knowledge sharing and conversations around new technologies that support better regulation. Lastly, it engages with firms, governments and regulators both in the UK and internationally to build relationships which help foster innovation. This includes establishing FinTech cooperation agreements.

Prior to joining the FCA, Christopher was Group Director and Content Board member at OfCom – the UK’s communications market regulator. He has spent most of his career in regulation or policy development including working at the BBC and in government as a senior civil servant. He is a Sloan Fellow of London Business School.

Patrick B. Wyman

*Supervisory Special Agent
Federal Bureau of Investigation*

Supervisory Special Agent (SSA) Patrick Wyman entered on duty with the FBI in January 2009 and is currently a program manager in the FBI’s Financial Crimes Section, Money Laundering Unit.
