

Installing Updates to ECPA

Join us on Friday, March 6, from 8:30am to 2:00pm
for a one-day convening marking the 40th anniversary of the
Electronic Communications Privacy Act.

Enacted to protect the privacy and security of electronic communications, including from overbroad government surveillance, ECPA looks much the same today as it did four decades ago, despite seismic advances in technology and its widespread adoption.

Featuring leading scholars, practitioners, and former government officials, the program will explore how courts and policymakers are applying a law written for an earlier era of communications and outline specific updates needed to modernize it and keep it vital for decades ahead. The event will include keynote remarks and moderated author panels. It will be held in a hybrid format, with options for both in-person and virtual participation.

**Friday,
March 6**

Georgetown Law Center
125 E St NW
from 8:30am - 2:00pm

**RSVP
