During the forty-first session of the UNCITRAL Working Group III that will be held from 15 to 19 November 2021, the Center for the Advancement of the Rule of Law in the Americas (CAROLA) will present a policy brief called "New Directions in International Investment Law: Alternatives for improvement" that seeks to provide policy-makers with a set of international investment reform options and to highlight mechanisms through which they may implement them. Among those options, three approaches stand out: ISDS re-domestication, reconceptualization of the international investment regime, and ISDS reform. The conversation will be then followed by a Q&A session with participants and the CAROLA team.
